

Instruction.

ROCKLAND FEMALE INSTITUTE,

At the HUDSON.

We beg leave to call your attention to some of the advantages which our Institution offers to Young Ladies desiring a pleasant education, and the opportunity of acquiring a thorough and finished education.

The Institution is located on the west bank of the Hudson, twenty-five miles from New York, and is accessible by Rail-road and Steam-boat from the city or any part of the country. The situation is one of the finest that even the Hudson can boast, and commands, in every direction, a view of mountain, valley, and river scenes of the rarest grandeur and beauty. The healthfulness of the climate is probably unequalled by that of any other part of the country.

The edifice is a fine, modern, brick structure, furnished with taste and elegance, and has ample accommodations for one hundred boarders. It is lighted with gas, heated by furnaces, thoroughly ventilated, and supplied throughout with pure water from a mountain spring. The grounds are extensive, embracing ten acres, and furnish every facility for recreation in the open air. The river, to the shore of which the grounds extend, has a fine Beach, and a Bath-house, with commodious Dressing-rooms, has been erected, that pupils may enjoy the benefits of salt-water bathing.

The Course of Study is full and systematic, embracing three departments—Preparatory, Academic, and Collegiate—and comprises, it is believed, all the branches both practical and ornamental, which young ladies find it desirable to pursue.

Instruments and Vocal Music receive especial attention. The French language is taught by a Lady, who was for many years a teacher in a famous school in France.

The education of the School constitutes one of its chief excellencies. The Principals, and all the Faculty, reside in the same building, as do all the pupils, on the same table, with the result, which contributes largely to the formation of correct habits, and to the cultivation of refinement and elegance of manner.

In order to secure the healthful and symmetrical development of the body, a systematic course of physical training has been adopted, and has resulted in the marked improvement of many of the young ladies. Carriages and fine saddle horses are furnished for those who wish to ride, and other out-door recreations are encouraged and liberally provided for.

The Summer term will commence April 18, 1860.

Persons desiring further information will please send for our annual Catalogue.

Applications for admission should be addressed to

D. C. & F. MANSHORN, Principals.
